Prompt	whisper-1	whisper-large-v3	whisper-large-v3-turbo
A few people asked me what the best defence is, and I say it's a good plan.	0.0136	0.0478	0.0502
.	0.0941	0.0256	0.2443
"	0.0252	0.0261	0.0254
Part 1:	0.0130	0.0952	0.0759
I've been getting some really good questions.	0.0192	0.0328	0.0298

Pareto Frontier: Price vs. WER

Each point is one model+prompt configuration (color = model, shape = prompt). The dashed line connects configurations where no other configuration is both cheaper and more accurate. Both axes are oriented so the better direction (lower price, lower WER) points toward the top-right.
